Kaiser Permanente Southern California and Hawai'i Regional Nursing Research Program

2026 ABSTRACT & POSTER WORKSHOPS FAQs

- **What are the Abstract and Poster Workshops?**
 - The goal of the two workshops is to assist nurses in: 1) Demystifying calls for abstracts and the components to include when writing an abstract 2) Steps, tips, and components in constructing a memorable poster. Abstract and poster workshops are no-cost and are offered to Kaiser Permanente employees, Academia, and Community Partners.
- **Will CEs be provided?**
 - CE (continuing education) **will not** be given for these workshops. The workshops are voluntary. Those interested will need to sign up themselves or be CC'd if someone is signing them up on their behalf.
- **Should I sign up for all the dates offered?**
 - Workshops materials are repeated, these are **not** concurrent sessions or a series. No need to sign up for more than one date.
- **Can I bring my own abstract or poster for you to look at?**
 - Although there is time for Q&As after the workshop/presentations, there will not be time for 1:1 individual help.
- **Will the workshops be recorded?**
 - Not all workshops will be recorded. If the workshop is recorded, those attending will have access to the recording via Teams. It will not be emailed out individually. Any materials and templates mentioned in the workshop will be sent to those attending the workshop via the email used when registering.
- **I am interested, how do I sign up for the workshop?**
 - Once you have decided on a date that works for you, email Regina Valdez at: Regina.M.Valdez@kp.org. Please provide your full name and medical center/service area/academic setting. NUID is not needed. An outlook calendar invite will be sent shortly after. Please **do not** forward the outlook invite to those not registered. A reminder will be sent closer to the workshop. Contact Regina with additional questions.
